INDEX TO VOLUME XXXVI.

SUBJECT INDEX.

A

Air Control in Efficient Cupola Practice, Importance of, 49, 83.
Air-Furnace Practice, 197, 213.
Alloys of Iron and Manganese Containing Low Carbon, 157.
Aluminium Bronze as an Engineering Material, Improvement of, 131.
Aluminium on an Iron-Carbon Alloy, Influence of, 169.
American Development in High-grade Cast-iron Alloys, 30.
Analysis of Cupola Practice from the Angles of Coke Combustion and Size of Charges, Critical, 178.
August's Muffle Furnaces, Ltd., New Works of, 122.
Automatic Crane Control in Iron Foundries, 245.

B

Blast Furnace v. Direct Process of Steel Making, 290.
Brass Foundry Costing, 240.
Brass, Historical Note, 244.
Brass Scrap, Pitfalls in, 130.
Blacking Sand Moulds, 196.
British Blast Furnace and Cupola Practice, 153.

C

Canadian Steel Ingots and Castings, 276.
Carbon in Cast Iron, 199.
Cast Chaplets and Tinned and Untinned Core Irons, 191.
Casting, Scrapping a Large Grey Iron, 81.
Castings for Diesel Engines, 175.
Castings, Stresses in Non-Ferrous, 73, 111.
Castings to Replace Forgings, 166.
Cast Iron as an Engineering Material, Some Aspects of, 239.
Cast Iron, Carbon in, 199.
Cast Iron during Solidification, on the Volume Change in, 123.
Cast Iron, Growth of, 114, 267.
Cast Irons, Constitution of Silicon-Carbon-Iron Alloys and a New Theory of, 277.
Cast Iron, Strength of, 69, 89.
Cast Iron, Test Bars to Establish the Fluidity Qualities of, 283.
Cast Iron, Theory of Superheating, 108.
Cast-Iron Metallurgy, Session on, 103.
Cast Iron, Progress in the Production of High Duty, 147.
Centrifugal Casting of Sheet Bars, 155.
Chain, Nail, Bolt and Rivet Trades, 288.
Chilled Rolls, Making, 109.
Coal Firing of Cupolas, Auxiliary Powdered, 259.
Competition, Meeting Foreign, 255.
Cupola Practice, British Blast-Furnace and, 153.
Cold-Blast Pig-Iron, Value of, 167.
Conference on Engineering Materials, Berlin, 1927, 268.
Continental Steel Trust, 18, 152.
Convevors, Mould, 3.
Core Baking by Electricity, 166.
Core Irons, Cast Chaplets and Tinned and Untinned, 191.
Correction of Cupola Operation by Means of Cupola Temperature Recorder, 174.

Correspondence:—

Electric Furnace Industry, 2.
Estimating Carbon by Combustion, 2.
Influence of Iron Castings on Progressive Engineering, 72
Influence of the Working of a Blast Furnace on the Total Carbon Content of Pig-Iron, 88.
International Foundry Exhibition, Paris, 1927, 253
Price of Cast-Iron Pipes, 161, 190.
Progress in Ironfounding, 2.
Rammed Linings, 274.
Short Life of the Blast-Furnace Tuyere, 253.
Special Cast Iron, 179.
Query from Madeira, 97.
Costing, Brass Foundry, 240.

Costs, Note about Patternmaking, 247.
Cover, Making a Large Circular, 287.
Crane Control in Iron Foundries, Automatic, 245.
Cupola Melting of Steel, Properties of Coke Affecting the, 15, 261.
Cupola Practice, Importance of Air Control in Efficient, 49, 83.
Cupola Practice, National Foundry Gathering Discusses, 93.
Cupola, Auxiliary Powdered Coal Firing of, 259.
Cupolas, Rammed Linings for, 264.
Cylinders for the Locomotives and Piston Rings by the Paris-Orleans Railway Company, Note on the Manufacture of Steam, 7.
Cylinder Practice, Pointers on Steam-Engine, 135.

D

Diesel Engines, Castings for, 175.
Drum Shaft, Giant, 161.

E

Education and Industry, 275.
Electric Power in the Foundry, 276.
Electrode Holder for Electric Furnaces, New, 152.
Engineering Advertising, 138.
European Ferro-Silicon Syndicate, 30.
Exhibition at Olympia, Shipping, Engineering and Machinery, 265.
Exhibition in Paris, Foundry, 232, 257.

F

Foreign Competition, Meeting, 255.
Foundry Exhibition in Paris, 232, 257.
Foundry Costs, Pattern Making and, 241.
Foundry Purchasing, 146, 182, 226, 246.

Foundry Queries:—

Cast Hollow Rolls, 102.
Exhausting Grinding-Wheel Dust, 2.
Hollow Rolls, 75.
Making Large Heavy Rolls, 80.

G

Gas for Foundry Practice, Importance of Cheap Town's, 133.
Gating Tensile-Test Bars of Sand-Cast Non-Ferrous Alloys, Methods for, 159.
Gear, Positive Drive Infinitely Variable, 168.
Gear Wheels, Novel Design for, 113.
Grey Cast Iron, on the Effect of Nickel-Chromium on the Strength Properties of, 4, 37.
Growth of Cast Iron, 114.

I

Institute of British Foundrymen, 31, 61.
Institute of Metals, 80, 210.
International Committee of Foundry Technical Associations, 232.
Iron Alloyed with Molybdenum and Copper, Commercially Pure, 184.
Iron and Steel Institute, 166, 184.
Iron and Steel Merchants, Suggested Federation of, 30.
Is "Burning-on" a Success? 291.

L

Laryngaphone, 290.

Leaders:—

All Hands to the Plough, 273.
Border Line Alloy, 59.
Duties, Qualifications and Salary, 143.
Eyes to See, 165.
Industry and Patents, 1.
International Standards, 209.
Nineteen Thirty-Seven, 121.
Old Friends with New Faces, 79.
Progress, 101.
Tests and Testing Procedure, 231.
That "Neutral" Point, 189.
Unqualified Success, 29.
What of the Future? 251.

Legal Position of Company Directors, 224.
Linings for Cupolas, Rammed, 264.

M

Making a Large Circular Cover, 287.
Malleable Cast-Iron, Developments in, 129.
Manganese and Manganese Sulphide on Whiteheart Malleable, Influence of, 23, 41.

INDEX TO VOLUME XXXVI.
